Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: claims 1, 3, 5-10, 16, 18, and 20-30 have been found to be allowable since the prior art of record either alone or in combination, neither discloses nor makes obvious the combination of a scanning exposure method (and corresponding scanning exposure device) for transferring a patterned formed on a mask onto a substrate having steps of synchronously moving the mask and the substrate with respect to an illumination light along a synchronous moving direction of the substrate while determining a spatial frequency distribution of the divided area and deciding to use either a first focusing control mode or a second focusing control mode as depending on the spatial frequency distribution of the divided area determined in the determining step and a width of an illumination area on the substrate, as recited in amended above claims. Applicant's arguments filed June 30, 2003 are deemed persuasive and incorporated herein by reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
